T-Shirt Bags / Carrier

The Carrier Bag, in whichever form,
Is the main tool for items' transport
from the Supermarket / Retail Point to
the Consumer's homeplace.

The choice of the right combination of
packaging products is crucial for the
Supermarket and Retail chains.

Nowadays. It is not only a matter of
choosing an item, but a matter of
choosing the right combination of
items, and developing them together.

We, in parallel, scientifically advise, as
Partners, on the optimal choices for
each Corporate Profile.

THE CHOICE OF RAW MATERIAL IS A PROCESS THAT IS ASSOCIATED WITH:

- COSTS
- ENVIRONMENTAL IMPACT
- PRODUCT SPECIFICATIONS
- CORPORATE IMAGE & MARKETING

THE CHOICE SHOULD BE MADE IN CO-OPERATION WITH AN EXPERIENCED PACKAGING PARTNER WHO CAN ADVISE OBJECTIVELY ON THE RELATED ISSUES. WE HAVE BEEN DOING THIS FOR YEARS, WITH THE MOST DEMANDING ACCOUNTS.

WE HAVE BEEN DEVELOPING AND APPLYING DISPENSING SYSTEMS SINCE THE LATE '80S. THERE ARE NUMEROUS OPTIONS THAT CAN ORGANIZE A STORE, IMPROVE ITS IMAGE, AND RESULT IN COST-EFFICIENCY.

**Bio-Degradable/
Compostable/
Degradable/
Oxo-Biodegradable**

**Dispensing Systems
(SURE-4)**

All items may be offered made from absolutely natural materials like Starch, with the final product being purely Compostable. In parallel and alternatively all products are also offered as Degradable/Oxo-Biodegradable. The same stands for all packaging products, not only bags.

p.8

Sacks & Bags

(HEVI-3)

Sacks & Bags for Heavy Duty and Specialized Applications like Aggregates, Pulps, Powders, Food Transport & Storage etc

A big group of products, with a huge field of applications. Sacks and Transport-Bags are used worldwide for just about everything that needs to be moved. Every need corresponds to a product that can fulfill the need. Printed and unprinted solutions are part of a big range.

.PACKAGING PRODUCTS

Market Products

(PACA-1)

Freezer Bags, Sandwich Bags, Food Bags, Cling Film etc

All items may be custom-produced and marketed under its own brand. The product itself, its packaging as well as both may be supplied to industrial or retail customers.

Bread & Bakery Goods Packaging

(PACA-2)

Wicketed Bags, For Automatic & Manual Application, Films on Rolls Partially Microperforated, Microperforated, Non-perforated Flat & Semi-Folded LDPE/CPP/BOPP

Bread packaging is especially important for the effective communication of the product. Customers in this branch may include industrial customers, as well as packaging companies. High quality printing and a large range of solutions is available.

p.9

Poultry/ Chicken Bags

(PACA-3)

Wicketed Chicken Bags,
Shrinkable & Bodysleeve
For Automatic & Manual Packaging
PVC & PE
Regular PE Bags for various food
related applications

Poultry packaging technologies for effective preservation and product image are a very strong point of the range, and solutions for all stages are offered: from freezer storage bags for poultry and poultry parts, to final commercial product packing with printing.

Custom Food Packaging

(PACA-4)

Salt, Sugar, Spices, Flour, Herbs, Nuts,
Legumes, Pasta, Dry Products etc

Packaging range for industrial clients, contract packagers and supermarket chains who perform their own packing, as well as private label creation projects. High quality printing, and experience with high-profile brands guarantee an effective product presentation and sales tool.

Hygiene Paper Packaging

(PACA-5)

Packaging for Paper Tissues,
Toilet Paper,
Kitchen Paper,
Other similar project applications

In a sector of very high competitiveness, the packing of household paper products is especially important to win the battle of competition. No lost space, printing quality, technical support for packagers, private label solutions, all lead to a final result that is targeted to enhance cost effectiveness and sales.

p.11

Refuse Garbage Bags

(PACA-9)

Custom Made, Classic,
Recycled & Non-Recycled
Draw-String, Star-Sealed, Other

The issue of garbage disposal is more complex and demanding nowadays than ever. It is no longer a simple job to supply a garbage bag. Numerous items are developed. The vast majority can be covered by our range, including private label projects, which are a dominant tendency in a changing market, as well as degradable / biodegradable options.

Diaper Packaging

(PACA-10)

High Standard Projects for
Diaper & Hygienic Pads Packaging

The suitable packaging for personal hygiene products should communicate product quality and reliability. The products contact sensitive body parts, and their packaging should reflect trust, high level of technology, and friendliness. Industrial clients must have a packaging partner that is aware of these key-facts, to correspond to the requirements of product image.

Detergent Packaging

(PACA-11)

High Standard Projects for all sizes of
Detergent Packaging

Detergent packaging projects reflect an everyday battle of competitiveness for a group of household products that never stop working. Clothes are worn, washed, worn again, and washed again. Vivid printing colors with the right printing give confidence to the consumer, and convenience of opening and closing, contributes to practical use in a busy household. We know it, we apply it.

p.12

Ice Packaging

(PACA-12)

Projects for Ice-Packagers at the highest level

Seasonal products like ice are in most countries a product that is forgotten for some months and then remembered again. And especially ice must be packed well and tightly, to avoid leakage accidents and therefore loss of trust in the product. Ice is frozen water. What would be more important for such a product than its packing.

Mailing Envelopes

(PACA-13)

Projects for the Courier & Mailing Industry

A colour, a print, a logo, make the image of a courier brand be different from another, and special. Service and speed should be communicated on the packing of the transported products, so here is the right group of products to do it.

.FILMS

Stretch Films

(FILO-1)

Hand-Rolls,
Machine-Rolls,
Jumbo-Rolls

To wrap automatically or manually should be a simple and cost-effective issue. Behind the scenes and before arriving to the customer most goods will at some point be wrapped. Doing it properly saves costs, time, in many cases prevents pallet turning and increases transport and storage safety.

p.13

Other Industrial Products

(FILO-2)

Builders-Films, Bubble-Film, PE-Film

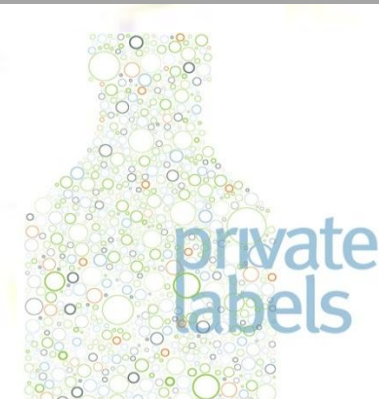

Industrial clients in many cases order films for various applications. We can supply competitively, reliably and with high capacity, offering products based on high standard raw materials for a large range of applications.

.PRIVATE LABEL

All Above

(PR-AL)

Private-Label Creations & Co-Operations are possible in all above fields for both Industrial & Retail Customers

Private-Label Projects reflect a trend that is here to stay. It is no longer a concept that goes along with compliances in quality. Private-Label products are competing on equal terms with established brands, and they become brands on their own. Packaging products not only follow these developments, but it may be said that packaging first sets the image of a private-label product and its position in relation to other brands, through the first visual contact. All above packaging products are advised to be used for PL projects.
